

11th IEEE International Smart Cities Conference - ISC2 2025

“Resilient & Sustainable Smart Communities”

October 6-9th, 2025, Patras, Greece University of Patras Conference and Cultural Centre

ISC2 is the flagship IEEE conference for Smart Cities, sponsored by the IEEE Smart Cities Community and the IEEE Power & Energy Society. Besides contributions addressing the conference theme, authors are welcome to submit their original research results in topics across broad application and functional domains, within the context of smart urban systems.

IMPORTANT DATES

Regular Paper Submission:	May 15, 2025
Workshop proposals:	April 13, 2025
Tutorial proposals:	May 18, 2025
Special session proposals:	April 13, 2025

ISC2-2025 will feature the following tracks:

- Track 1 Smart City Infrastructure – Revisiting Networks & Testbeds for Smart Cities
- Track 2 Smart Education for Resilient & Sustainable Cities
- Track 3 Smart Mobility – Autonomous Vehicles & Transition to EVs
- Track 4 Smart Services in the Urban Ecosystem
- Track 5 Healthcare and Well-being in Cities
- Track 6 Smart Grid for Sustainable Cities and Virtual Power Plants
- Track 7 Data Spaces in the Smart City Ecosystem
- Track 8 Cybersecurity and Privacy in Smart Cities
- Track 9 Digital Twins in Smart Cities
- Track 10 Transfer of Smart Cities Research and Applications to the Peri-Urban Domain & Smart Agriculture
- Track 11 Resilient Smart Cities - Adapting to Climate Change & Transforming the Urban Application Domain
- Track 12 General Track
- Track 13 Smart Lighting for Sustainable Cities

Accepted papers will be published on IEEE Xplore digital library
